Safety Tips

Identify the EXITS in the event of an emergency.

Please monitor the children in your care.

Follow safety guidelines on escalators to avoid injury.

Look where you walk. Although looking up often to view art and architecture, you may be approaching a staircase.

When viewing the Rotunda from upper levels, do not lean over the railing – keep feet on the floor at all times.

Your cooperation with security is important. Security is present to protect everyone – those who work within the building and those who visit.
